

FEBRUARY 2008

News from the Child Care Centre

We can't believe it's already February. The year is going by so quickly!

This month we will be introducing the Talk Box. This is a great resource for parents that helps with children's speech development. It is comprised of monthly newsletters and theme cards as well as many activities for you to do with your child to expand their language skills. It will be on display outside the childcare centre later this month with a full explanation on how to use it. It will be changed and updated monthly. This is a very useful tool for all children.

THEMES

Room 1

Alphabet
Valentine's Day
Monsters

Room 2

Robert Munsch
Music of the World

Parents, please provide your children with a water bottle everyday. Thank you.

Our summer application forms are now available. Due to the high demand for our wonderful program, we have made some changes to our registration procedure. Parents will still have the option to register for the weeks they would like their children to attend, but will have to register for the whole week. We no longer have a registration per day, as demand for our program is too high.
